EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel Pauly on June 15, 2006.

The application has been amended as follows:

In the Claims:

In line 3 of claim 1, ---a first particulate filter component comprising a porous membrane;--- has been inserted after "of the housing;"

In line 3 of claim 1, ---having an extended length--- has been inserted after "the first diffusion channel".

Claim 4 has been canceled.

In line 1 of claim 5, "claim 4" has been changed to ---claim 1---.

In line 1 of claim 6, "claim 4" has been changed to ---claim 1---.

In line 1 of claim 7, "claim 4" has been changed to ---claim 1---.

Claim 11 has been canceled.

In line 1 of claim 12, "claim 11" has been changed to ---claim 1---.

Allowable Subject Matter

2. Claims 1-3, 5-10 and 12- 26 are allowed.
3. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicant's arguments that there is no motivation to combine the cited references to arrive at the claimed assembly. The prior art of record fails to disclose or suggest a motivation for using a second diffusion channel configured and arranged to provide fluid communication between the interior chamber of the housing and an exterior or aperture in addition to a first diffusion channel having extended length configured and arranged to provide fluid communication between the interior chamber and the inside of an enclosure or second aperture. The objections to the specification and abstract have been overcome and are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the attached PTO-892 form disclose gas purification devices.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank M. Lawrence whose telephone number is 571-272-1161. The examiner can normally be reached on Mon-Thurs 7:30-6:00.
